SUMMARY

Full Stack Developer with hands-on experience building web applications using PHP, Laravel, React.js, Node.js, Next.js, SQL, MongoDB, and modern CSS frameworks. Delivered features that improved automation, reduced manual effort, and boosted system performance. Promoted from Web Developer Intern to Developer within a year. Strong background in backend APIs, AI integration, database optimization, and responsive UI development.

SKILLS

- Backend: PHP, Laravel, Node.js, REST APIs, OOP, JSON
- Frontend: React.js, Next.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS
- Databases: MongoDB, MySQL, SQL queries, schema design
- Tools & Practices: Git, GitHub, Linux (Basics)
- Other: AI API integration, Gmail API, debugging, automation workflows

EXPERIENCE

Web Developer Intern | Digital Kuppam, Kuppam, Andhra Pradesh 05/2023 to 02/2024

Responsibilities:

- Built task manager with CRUD operations, improving workflow efficiency by 30%
- Implemented authentication & session control, reducing unauthorized access by 25%
- Optimized MySQL queries and database design, improving performance by 20%
- Applied MVC architecture for scalable and maintainable code (-15% dev time)errors

Full Stack Developer | Digital Kuppam, Kuppam, Andhra Pradesh 02/2024 to Present

Responsibilities:

- Built email campaigns and drip workflows using Laravel, improving delivery efficiency by 12%
- Automated scheduling with Gmail API, reducing manual effort by 15%
- Optimized MySQL databases, increasing data retrieval speed by 10%
- Implemented user authentication and role-based access control, enhancing website security and reducing unauthorized access risks by 20%.
- Implemented authentication & RBAC, reducing unauthorized access by 20%
- Improved system stability and code maintainability through bug fixes and modular architecture (+8% uptime, -10% dev time)

PROJECTS

AI Resume Builder (React.js, Node.js, AI Integration)

🔗 Live: <https://www.airesume.codespidey.com> 🔗 GitHub: <https://github.com/Dilliraj-S/Ai-resume-builder>

- Developed a web-based resume builder with AI-powered content suggestions
- Integrated AI APIs to generate professional summaries and ATS Score
- Built dynamic form handling and real-time preview using React.js
- Designed backend services using Node.js for data processing and API integration
- Implemented user-friendly UI for creating and customizing resumes efficiently

Task Manager Application (Laravel, MySQL, Blade)

🔗 GitHub: <https://github.com/Dilliraj-S/Task-Manager>

- Developed a task management web application to create, update, and track tasks
- Implemented user authentication and session management using Laravel
- Built CRUD operations for managing tasks with clean UI
- Designed database schema and handled data storage using MySQL
- Applied MVC architecture for better code organization and maintainability

Email Automation Module (Laravel, MySQL, JS)

🔗 GitHub: <https://github.com/Dilliraj-S/unique-data-handling-project>

- Built a campaign system with email scheduling and automation

CERTIFICATIONS

- Microsoft Virtual Internship – Future Skills Prime
- Digital Forensics & Incident Response (Cybersecurity) – Future Skills Prime
- Long-Term Internship – Datalense Services (Web Development & Data Management)

EDUCATION

- Kuppam Engineering College, Kuppam, Andhra Pradesh, BTECH(CSE) 12/2020 to 05/2024
